

National Cancer Institute
Publications Catalog

and Order Form

Materials From the National Cancer Institute

For Patients, Health Professionals, and the Public

The National Cancer Institute (NCI) is part of the Federal Government. NCI's materials reflect the nation's investment in improving the prevention, detection, diagnosis, and treatment for cancer. NCI provides the materials described in this catalog to give accurate and timely information to patients and their families; to health care providers and communicators; and to science writers, educators, and the interested public.

The list of publications presently available from NCI is organized as follows:

SPECIFIC CANCERS.....	3
TREATMENT OPTIONS.....	4
CLINICAL TRIALS.....	5
COPING WITH CANCER.....	7
TESTING FOR CANCER.....	8
RISK FACTORS/CAUSES, PREVENTION.....	9
GENETICS.....	10
TOBACCO/SMOKING.....	10
STATISTICS.....	11
GENERAL.....	13
MATERIALS IN OTHER LANGUAGES.....	14
HOW TO PLACE AN ORDER.....	19
ORDER FORM.....	20

SPECIFIC CANCERS

Title	Inventory Number
Charting the Course: Priorities for Breast Cancer Research/ Report of the Breast Cancer Progress Review Group, August 1998 http://prg.nci.nih.gov/breast/default.html This report describes National Cancer Institute's (NCI's) current activities in breast cancer and discusses important research directions and activities needed to conquer breast cancer. It is designed for people who want information about NCI's research priorities activities in this area. 8/1998 This report is currently not available in hard copy. It is available to view and print to your own printer from the following web site: http://prg.nci.nih.gov/breast/default.html	T502
Conquering Colorectal Cancer: A Blueprint for the Future, May 2000 http://prg.nci.nih.gov/colorectal/default.html This report describes NCI's current activities in colorectal cancer and discusses important research directions and activities needed to conquer colorectal cancer. It is designed for people who want information about NCI's research priority activities in this area. 5/2000	T601
Defeating Prostate Cancer: Crucial Directions for Research: Report of the Prostate Cancer Progress Review Group, August 1998 http://prg.nci.nih.gov/prostate/default.html This report describes NCI's current activities in prostate cancer and discusses important research directions and activities needed to conquer prostate cancer. It is designed for people who want information about NCI's research priority activities in this area. 8/1998	T503
Pancreatic Cancer: An Agenda for Action: Report of the Pancreatic Cancer Progress Review Group, February 2001 http://prg.nci.nih.gov/pancreatic/default.html This report describes NCI's current activities in pancreatic cancer and discusses important research directions and activities needed to conquer pancreatic cancer. It is designed for people who want information about NCI's research priority activities in this area. 2/2001	T476
Priorities of the Kidney/Bladder Cancers Progress Review Group http://prg.nci.nih.gov/kidney/finalreport.html This report describes NCI's current activities in kidney and bladder cancer and discusses important research directions and activities needed to conquer kidney and bladder cancer. It is designed for people who want information about NCI's research priority activities in this area. 8/2002	T122
Prostate Cancer Trends 1973-1995 http://seer.cancer.gov/publications/prostate/ This Surveillance Epidemiology and End Results (SEER) program monograph provides detailed information on the demographic and clinical features of prostate cancer in the United States. 9/1999	T474
Radioactive Iodine I-131 and Thyroid Cancer: An Education Resource Designed to address Native Americans' concerns about I-131 fallout from the Nevada tests and its relationship to thyroid cancer, this flip chart illustrates key messages to help people understand their possible risks. Includes talking points for use during a presentation. 9/2002	P008
Report of the Brain Tumor Progress Review Group, November 2000 http://prg.nci.nih.gov/brain/default.html This report describes NCI's current activities in brain tumor cancer and discusses important research directions and activities needed to conquer brain tumor cancer. It is designed for people who want information about NCI's research priority activities in this area. 11/2000	T491
Report of the Gynecologic Cancers Progress Review Group, November 2001 http://prg.nci.nih.gov/gyno/default.html This report describes NCI's current activities in gynecologic cancer and discusses important research directions and activities needed to conquer gynecologic cancer. It is designed for people who want information about NCI's research priority activities in this area. 11/2001	T533

Report of the Leukemia, Lymphoma, and Myeloma Progress Review Group, May 2001

T029

<http://prg.nci.nih.gov/llm/default.html>

This report describes NCI's current activities in leukemia, lymphoma, and myeloma cancer and discusses important research directions and activities needed to conquer leukemia, lymphoma, and myeloma cancer. It is designed for people who want information about NCI's research priority activities in this area. 5/2001

Report of the Lung Cancer Progress Review Group, August 2001

T897

<http://prg.nci.nih.gov/lung/default.html>

This report describes NCI's current activities in lung cancer and discusses important research directions and activities needed to conquer lung cancer. It is designed for people who want information about NCI's research priority activities in this area. 8/2001

Report of the Stomach/Esophageal Cancers Progress Review Group

T916

<http://prg.nci.nih.gov/stomach/default.html>

This report describes NCI's current activities in stomach and esophageal cancer and discusses important research directions and activities needed to conquer stomach and esophageal cancer. It is designed for people who want information about NCI's research priority activities in this area. 12/2002

What You Need To Know About Cancer series

This series of pamphlets discusses symptoms, diagnosis, treatment, emotional issues, and questions to ask the doctor. Includes glossary of terms and other resources.

Cancer Site	Inventory Number
Bladder	P014
Brain	P016
Cancer	P018
Cervix	P019
Colon & Rectum	P020
Esophagus	P021
Hodgkin's Disease	P022
Kidney	P023
Larynx	P024
Leukemia	P832
Liver	P429
Lung	P026
Melanoma	P027
Moles & Dysplastic Nevi	P028
Multiple Myeloma	P030
Non-Hodgkins Lymphoma	P031
Oral Cancers	P032
Ovary	P033
Pancreas	P034
Prostate	P035
Skin	P036
Stomach	P037
Thyroid	P620
Uterus	P039

TREATMENT OPTIONS

Title	Inventory Number
Chemotherapy and You: A Guide To Self-Help During Cancer Treatment	P117

<http://www.cancer.gov/cancerinfo/chemotherapy-and-you>

This 56-page booklet, in question-and-answer format, addresses problems and concerns of patients receiving chemotherapy. The emphasis is on explanation and self-help. 9/1999

Radiation Therapy and You: A Guide to Self-Help During Cancer Treatment

P123

<http://www.cancer.gov/cancerinfo/radiation-therapy-and-you>

This 52-page booklet addresses concerns of patients receiving forms of radiation therapy. The emphasis is on explanation and self-help. 4/2001

CLINICAL TRIALS

CLINICAL TRIALS EDUCATION SERIES

DISCUSSION GUIDES

Title	Inventory Number
Cancer Clinical Trials Slide Programs http://oesi.nci.nih.gov/series/cted/cds.html This CD-ROM contains three complete PowerPoint presentations, listed below, for specific audiences: general public, community/low-literacy, and health care professionals. These programs are designed to complement the other materials in the NCI Clinical Trial Education Series. Cancer Clinical Trials: The Basics is a 27-slide program designed for a general audience and contains talking points to assist the presenter. Cancer Clinical Trials . . . the Way We Make Progress Against Cancer is a concise program designed for a community setting and contains 13 slides and talking points to assist the presenter. This program is especially useful for low-literacy audiences. Clinical Trials: In-depth information is geared to health care professionals and contains 32 detailed slides for people who already have some knowledge about medical research. 11/2001	Q985
Cancer Clinical Trials: A Resource Guide for Outreach, Education, and Advocacy http://www.cancer.gov/clinicaltrials/resources/outreach-education-advocacy This 116-page guide is designed to help individuals and organizations find ways to participate and engage your community in clinical trials outreach and education activities. It covers the following topics: Strategies for Outreach and Education (including clinical trial barriers and strategies for educating ethnically diverse populations); Ways To Educate Yourself About Clinical Trials; Ways To Educate Others About Clinical Trials, One-on-One; Ways To Conduct Community Outreach and Education on Clinical Trials; Ways To Work With the Media on Clinical Trials; and Ways To Work With Hospitals, Medical Centers, and Universities. The guide also includes worksheets and a Plan for Action to help both individuals and organizations plan outreach efforts. 09/2002	P921
Cancer Clinical Trials: The Basic Workbook http://cancer.gov/clinicaltrials/resources/basicworkbook This 91-page workbook is designed for individuals who want to develop a basic understanding of clinical trials. The workbook features the following sections: Why Cancer Clinical Trials Are Important; The Clinical Trial Process; Advancing Cancer Care Through Clinical Trials; Participant Protection in Clinical Trials; Barriers to Clinical Trial Participation; and Finding Clinical Trials. Each section is followed by an exercise or some review questions. 9/2002	P919
Cancer Clinical Trials: The In-Depth Program http://cancer.gov/clinicaltrials/resources/in-depth-program This 96-page textbook is designed for health care professionals and others who seek a more in-depth understanding of clinical trials. The text features the following sections: An Overview of Clinical Trials; The Clinical Trial Process; Clinical Trial Design and Interpretation of Results; Advancing Cancer Care Through Clinical Trials; Participant Protection in Clinical Trials; Barriers to Clinical Trial Participation; and Conducting, Referring to, and Locating Clinical Trials. The textbook concludes with a case study. 09/2002	P920
Trainer's Guide for Cancer Education http://cancer.gov/clinicaltrials/resources/trainers-guide-cancer-education This 115-page guide is designed for both lay people and health professionals who conduct group training sessions with community and scientific audiences. It offers practical suggestions for trainers to enliven training programs, encourage more active participation, and enrich the learning experience for everyone involved. The guide also includes worksheets to help both individuals and organizations plan training programs. It is designed to complement the other materials in the NCI Cancer Clinical Trials Education Series. 11/2001	P935

BOOKLETS

Title	Inventory Number
If You Have Cancer . . . What You Should Know About Clinical Trials http://cancer.gov/clinicaltrials/resources/what-to-know-about-trials Designed for patients considering participation in a clinical trial, this easy to read brochure features photos of African-American and Hispanic people. Designed to be used with a health care professional. 11/2001	P968
If You Have Cancer and Have Medicare . . . You Should Know About Clinical Trials http://cancer.gov/clinicaltrials/resources/medicare-and-cancer-trials This brochure is designed for Medicare recipients who have cancer. It provides general information about cancer clinical trials, Medicare coverage, and questions to ask before joining a clinical trial. 4/2002	P112
Taking Part in Clinical Trials: Cancer Prevention Studies: What Participants Need To Know http://cancer.gov/clinicaltrials/resources/taking-part-prevention-trials This booklet is a resource to assist professional staff and clinical trial participants in their understanding of the background and purpose of chemoprevention research in a community setting. This booklet is part of the NCI Clinical Trials Education Series. 7/1998	P551
Taking Part in Clinical Trials: What Cancer Patients Need to Know http://cancer.gov/clinicaltrials/resources/taking-part-treatment-trials This booklet is for people with cancer, their families, and others who care about them. It is divided into three sections, with each section answering questions people have about clinical trials. This booklet is part of the NCI Clinical Trials Education Series. 6/1998	P148

VIDEOS

Title	Inventory Number
Cancer Clinical Trials: An Introduction for Patients and their Families This video is designed for patients and their families who may be deciding to take part in a treatment clinical trial. A discussion guide, designed for health care professionals, accompanies the video. 11/2001	V360
Cancer Trials: Because Lives Depend on It This clinical trial awareness video is designed for educating community groups about prevention and treatment clinical trials. A speaker's guide, designed for someone with basic knowledge about clinical trials, accompanies the video. 11/2001	V980

OTHER CLINICAL TRIALS MATERIALS

Title	Inventory Number
Human Participant Protections Education for Research Teams This brochure describes NIH's Human Participant Protections Education Web-based course which presents information about the rights and welfare of human participants in research. Designed for scientists involved in research with humans. 11/2002	T803
NLST National Lung Screening Trial This brochure describes NCI's National Lung Screening Trial, comparing spiral CT scans and chest x-rays in detecting lung cancer in smokers and former smokers. The study is intended to show which test is better at reducing deaths from this disease. 5/2002	P025
Participation of Minorities and Women in Clinical Cancer Research: Annals of Epidemiology This supplement to the Annals of Epidemiology provides a summary of a National Cancer Institute workshop held in July 1998, entitled "Participation of Minorities and Women in Clinical Cancer Research" and a subsequent workshop held in February 1999. These workshops summarized and evaluated recent research activities in this area. This publication is designed for health professionals. 11/2000	T831
SELECT: SELECT Men Fighting to Prevent Prostate Cancer This tri fold brochure describes SELECT, a large cancer prevention research study in progress in the United States and Canada. SELECT is designed to determine whether taking selenium and/or vitamin E dietary supplements can prevent prostate cancer. 6/2001	P113

STAR: Study of Tamoxifen and Raloxifene: What Are Your Chances of Getting Breast Cancer?	P135
This brochure describes the STAR Study (a breast cancer prevention study) and is designed for women who may be at risk for developing breast cancer. 6/1999	
The ROCA Study: Finding Ovarian Cancer Early in High-Risk Women	P348
http://epi.grants.cancer.gov/ovarian/ROCA.pdf	
This brochure describes a study looking at ways to find ovarian cancer early in women who are at high risk for this kind of cancer. It is designed for women who may be interested in participating in the study, which is called the Risk of Ovarian Cancer Algorithm or ROCA study. 9/2002	

COPING WITH CANCER

Title	Inventory Number
Controlling Cancer Pain, A Video for Patients and Families	V814
This closed-captioned video is for cancer patients and their families. It provides information about why patients have pain, the way pain can be treated, and what patients should do when they have pain. 9/2000	
Eating Hints for Cancer Patients	P118
http://www.cancer.gov/cancerinfo/eatinghints	
This booklet provides information and recipes to help patients meet their needs for good nutrition during treatment. 10/2002	
Facing Forward Series: Life After Cancer Treatment	P119
http://www.cancer.gov/CancerInformation/life-after-treatment	
This booklet in the Facing Forward Series covers post treatment issues such as follow up medical care, physical and emotional changes, changes in social relationships, and workplace issues. The Facing Forward series is designed to educate and empower cancer survivors as they face the challenges associated with life after cancer treatment. 4/2002	
Facing Forward Series: Ways You Can Make A Difference In Cancer	P012
http://www.cancer.gov/cancerinfo/making-a-difference	
This book in the Facing Forward Series is designed for cancer survivors and those who have taken care of someone with cancer. It provides an overview of the potential benefits of involvement in activities that give back to one's community, as well as the ways in which one can become involved in these activities. 6/2002	
Get Relief From Cancer Pain	P602
http://oesi.nci.nih.gov/RELIEF/RELIEF_MAIN.htm	
This easy to read brochure informs patients that medicine and other treatments almost always can relieve cancer pain. The patient is encouraged to talk to the doctor or nurse as soon as cancer pain begins. 5/1994	
Get Relief From Cancer Pain (large print)	H703
This easy to read, large-print brochure informs patients that medicine and other treatments almost always can relieve cancer pain. The patient is encouraged to talk to the doctor or nurse as soon as cancer pain begins. 9/1996	
Helping Yourself During Chemotherapy: 4 Steps for Patients	P603
http://cancer.gov/cancerinfo/helping-yourself-during-chemotherapy	
This easy to read booklet helps patients understand the importance of telling the doctor about any other medicines that they are taking, reporting any side effects to the doctor, and telling him or her about any emotional problems that arise. 01/2003	
Helping Yourself During Chemotherapy: 4 Steps for Patients (large print)	H707
This easy to read, large-print, 11-page booklet helps patients understand the importance of telling the doctor about any other medicines the patient is taking, reporting any side effects that occur to the doctor, and telling him or her about any emotional problems that arise. 9/1996	
Pain Control: A Guide for People with Cancer and Their Families	P258
http://oesi.nci.nih.gov/paincontrol/index.html	
This publication is for cancer patients and families who want to learn more about pain control methods, medicines for cancer pain, and non drug treatments for cancer pain. 6/2000	

Pain Rating Instrument	G818
This pain rating instrument is designed for cancer patients and their families. It is a scale that can be used to describe the intensity of pain. 9/2000	
Understanding Cancer Pain	P817
http://cancer.gov/cancerinfo/understanding-cancer-pain	
This booklet is designed to provide cancer patients and their families with information about why patients have pain, the different ways pain can be treated, and what patients can do when they have pain. 9/2000	
Understanding Pain Control kit	K872
This kit contains one copy each of the Understanding cancer pain booklet, El dolor relacionado con el cancer booklet, Controlling Cancer Pain, video and a hand-held Pain Rating Instrument. These components were developed in cooperation with Johns Hopkins University. 3/2001	
When Someone in Your Family Has Cancer	P619
http://www.cancer.gov/cancerinformation/whensomeoneinyourfamily	
This 28-page booklet is written for young people whose parent or sibling has cancer. It includes sections on the disease, its treatment, and emotional concerns. 2/1995	
Young People With Cancer: A Handbook for Parents	P130
http://www.cancer.gov/cancer_information/young_people/	
This booklet discusses the most common types of childhood cancer, treatments, and side effects as well as issues that may arise when a child is diagnosed with cancer. It offers medical information and practical tips gathered from parents. 04/2001	

TESTING FOR CANCER

Title	Inventory Number
Having a Pelvic Exam and Pap Test	P047
This easy to read brochure uses pictures to describe what a women will experience when getting a Pap test and pelvic exam from a nurse or doctor. 07/2001	
Making Choices: Screening for Thyroid Disease	P997
http://i131.nci.nih.gov/decision.html	
This booklet provides a decision making guide for individuals considering being screened for thyroid cancer based on their exposure to radioactive fallout from the Nevada nuclear weapons tests (1954-63). 9/2002	
Mammograms . . . Not Just Once But For A Lifetime!	P392
http://www.cancer.gov/cancer_information/doc.aspx?viewid=946804B6-8B6F-4CD4-B692-ED7169EB73C9	
This two-page, easy to read pamphlet defines mammography, describes who needs this important examination, and outlines the step-by-step procedure. 9/1999	
Mammograms . . . Not Just Once But For A Lifetime! (African American bookmark)	Z274
A bookmark featuring a picture of an African-American woman. This promotional item will be sent in packs of 100 and will not count toward the overall limit of 20 items per order. 9/1997	
Mammograms . . . Not Just Once But For A Lifetime! (Asian bookmark)	Z301
A bookmark featuring a picture of an Asian woman. This promotional item will be sent in packs of 100 and will not count toward the overall limit of 20 items per order. 10/1997	
Mammograms . . . Not Just Once But For A Lifetime! (black and white, reproducible version)	P425
This two-page, easy to read, black and white, easy-to-reproduce pamphlet defines mammography, describes who needs this important examination, and outlines the step-by-step procedure. 8/1997	
Mammograms . . . Not Just Once But For A Lifetime! (bookmark)	Z271
An English language bookmark featuring a picture of a Hispanic woman. This promotional item will not count toward the overall limit of 20 items per order. 9/1997	
Mammograms . . . Not Just Once But For A Lifetime! (Native American bookmark)	Z375
A bookmark featuring a picture of a Native American woman. This promotional item will be sent in packs of 100 and will not count toward the overall limit of 20 items per order. 9/1997	

Mammograms . . . Not Just Once But For A Lifetime! (White bookmark)	Z275
A bookmark featuring a picture of a White woman. This promotional item will be sent in packs of 100 and will not count toward the overall limit of 20 items per order. 9/1997	
Mammograms . . . Not Just Once, But For A Lifetime! (large print)	H496
This two-page, easy to read, large print pamphlet defines mammography, describes who needs this important examination, and outlines the step-by-step procedure. 09/1998	
The Picture of Health: How To Increase Breast Cancer Screening In Your Community	P389
This publication presents ideas and experiences of six breast cancer community demonstration programs, known collectively as the NCI Breast Cancer Screening Consortium, funded by NCI. 7/1994	

RISK FACTORS/CAUSES, PREVENTION

Title	Inventory Number
African Americans Take The 5 A Day Challenge for Better Health	P420
This brochure features color photos, personal stories of adopting healthy habits, and fast and easy tips to help the African American reader meet the 5 A Day Challenge. 5/1998	
Breast Cancer Risk Assessment Package CD Version (Versión en CD del paquete para la evaluación del riesgo de cáncer de seno)	T716
http://bcra.nci.nih.gov/brc/ This CD contains both the English and Spanish version of NCI's Breast Cancer Risk Assessment Tool (v.2) for Health Care Providers. It allows a health care provider to project a woman's individualized estimate of risk for invasive breast cancer over a 5-year period and over her lifetime. It then lets the woman compare her risk estimate with an average risk estimate for a woman of the same age. Este CD contiene la versión en inglés y en español de la Herramienta para "la evaluación del riesgo de cáncer de mama" (Breast Cancer Risk Assessment Tool) (v.2) del NCI para los trabajadores de la salud. Permite a un trabajador de la salud proyectar un cálculo individualizado del riesgo de una mujer de padecer cáncer del seno invasor en un período de cinco años y durante su vida. Permite a la mujer comparar su estimación del riesgo con una estimación media del riesgo para una mujer de la misma edad. 2/2001	
DES Research: Current Knowledge, Future Directions, Proceedings: July 19-20, 1999	T504
This two-day workshop on the long-term health effects of exposure to diethylstilbestrol (DES) was held at the National Institutes of Health in July 1999. It provided an update on research and a platform for discussion of current and future needs and recommendations for addressing those needs. 7/1999	
Down Home Healthy Cookin'	P886
These 12 "down home" recipes show how we can enjoy foods that are lower in fat, saturated fat, cholesterol, and sodium that are higher in fiber; and that promote good health. 3/1995	
Energizing Tips for a Healthier Family	P467
This tri fold, color, personal weekly schedule helps family members track the daily number of fruit and vegetable servings as well as physical activity. 3/1999	
Get the Facts About I-131 Radiation Exposure	P999
This brochure discusses radioactive fallout from Nevada nuclear weapons testing (1954-63) and possible health risks, particularly thyroid cancer. 9/2002	
Men Eat 9 A Day	P562
http://5aday.gov/9aday/ This booklet encourages African-American men to eat nine servings of fruits and vegetables a day. 4/2003	
Native Outreach: A Report to American Indian, Alaska Native, and Native Hawaiian Communities An Executive Summary	P007
This executive summary for "Native Outreach: A Report to American Indian, Alaska Native, and Native Hawaiian Communities" documents findings from NCI's Native American Prevention and Control Research Studies and is designed to promote cancer prevention and control at the community level. 3/1999	

Native Outreach: A Report to American Indian, Alaskan Native, and Native Hawaiian Communities	M304
This monograph documents findings from NCI's Native American Cancer Prevention and Control Research Studies and includes research studies that employed a number of research designs and intervention approaches to address cancer prevention and control programs for Native Americans. 3/1999	
Survey of Compounds Which Have Been Tested for Carcinogenicity: 1997-98	T717
This three-volume set is the 20th edition of U.S. Public Health Service Publication No. 149, Survey of Compounds Which Have Been Tested for Carcinogenic Activity, and covers literature published in 1997-98. It is published under contract to the Chemical and Physical Carcinogenesis Branch, Division of Cancer Biology, National Cancer Institute. 3/2001	
Time To Take Five: Eat 5 Fruits and Vegetables Every Day	P820
http://5aday.nci.nih.gov/index-takefive.shtml	
This brochure contains information on the importance of eating five or more servings of fruits and vegetables a day. It is written in an easy to read, upbeat fashion geared toward the general public. 5/1995	
Tips on How to Eat Less Fat (black and white reproducible version)	F934
This easy to read, black and white, easy to reproduce brochure gives simple tips on ways to cut back on the animal fat used in cooking. 1/1996	
Understanding Estrogen Receptors, Tamoxifen, and Raloxifene (booklet)	P200
This booklet contains the script for Understanding Estrogen Receptors, Tamoxifen, and Raloxifene slide kit. 8/2000	
Understanding Estrogen Receptors, Tamoxifen, and Raloxifene (slide kit)	K042
This slide kit is designed to translate complex biomedical concepts into understandable and accurate information. It describes the hormone estrogen and its receptors and the risks and benefits of reducing cancer risk with drugs called antiestrogens and selective estrogen receptor molecules (SERMS). 8/2000	

GENETICS

Title	Inventory Number
Genetic Testing for Breast Cancer Risk: It's Your Choice	P555
http://www.cancer.gov/cancerinfo/genetic-testing-breast	
This booklet provides an overview on genetic testing for breast and ovarian cancer risk. It describes testing and explains terms like family history, genes and genetic testing. 08/1999	
Understanding Gene Testing	T922
http://www.accessexcellence.org/AE/AEPC/NIH/index.html	
This booklet explains what genes are, how they work, and how faulty genes trigger disease such as cancer. It discusses the benefits and limitations of gene testing and the role of genetic counselors. 12/1995	

TOBACCO/SMOKING

Title	Inventory Number
Dangerous Game: The Truth about Spit Tobacco	P855
This booklet encourages students who use spit tobacco to develop a plan to quit and highlights the oral health effects of spit tobacco use, including gum recession, oral lesions, and oral cancer. 8/1995	
Smoking and Tobacco Control Monograph 11: State and Local Legislative Action to Reduce Tobacco Use	M613
This Smoking Tobacco and Cancer Program monograph identifies all known local tobacco control ordinances in the United States that have one or more of the following provisions-clean indoor air, youth access, or restrictions on tobacco advertising and promotion. 6/2000	
Smoking and Tobacco Control Monograph 13: Risks Associated with Smoking Cigarettes with Low Machine-Measured Yields of Tar and Nicotine	M914
http://cancercontrol.cancer.gov/tcrb/monographs/13/	
This report reviews evidence on the Federal Trade Commission's methods for measuring tar and nicotine yields in cigarettes and the disease risks of machine-measured low-tar cigarettes. 10/2001	

Smoking and Tobacco Control Monograph 14: Changing Adolescent Smoking Prevalence http://cancercontrol.cancer.gov/tcrb/monographs/14/index.html This monograph is the first major update of adolescent smoking behavior since the reports of the Surgeon General and the Institute of Medicine in 1994. It reports some progress toward reducing tobacco use among adolescents but also highlights areas in which more efforts are needed. 11/2001	M999
Smoking and Tobacco Control Monograph 15: Those Who Continue to Smoke: Is Achieving Abstinence Harder and Do We Need to Change our Interventions? This is the last in the series of Smoking and Tobacco Control Monographs begun in 1991. The reports in the monograph describe a variety of approaches that will be necessary to help more smokers quit. 4/2003	M250
Smoking and Tobacco Control Monograph 9: Cigars: Health Effects and Trends http://cancercontrol.cancer.gov/tcrb/nci_monographs/MONO9.HTM This monograph is the work of over 50 scientists and is a complete review of what is known about cigar smoking. The conclusions represent the best scientific judgment, of not only NCI, but also the larger scientific community. 2/1998	T486
Smoking Facts and Quitting Tips for African Americans This brochure discusses the health risks of smoking, who smokes, and why smokers should quit. It also provides quitting tips. 9/1993	P363
Smoking Facts and Tips for Quitting This four-page brochure discusses the health risks of smoking, who smokes, and why smokers should quit. It also provides quitting tips. 9/1993	P161
Spit Tobacco: A Guide for Quitting http://www.nidcr.nih.gov/health/newsandhealth/spitTobacco/ This booklet, published by the National Institute of Dental and Craniofacial Research and NCI, provides information on how to quit using smokeless tobacco. 6/2000	P121

STATISTICS

Title	Inventory Number
Atlas of Cancer Mortality in the United States, 1950-94 http://www.nci.nih.gov/atlas The Atlas of Cancer Mortality utilizes 1950-94 mortality data from the National Center for Health Statistics and population estimates from the Census Bureau. It includes more than 250 color-coded maps showing variations in cancer rates during 1970-94 and compares them with corresponding maps for 1950-69. 9/1999	T012
Cancer Progress Report 2001 Highlights http://progressreport.cancer.gov This is the executive summary of Cancer Progress Report 2001, the first in a new series of reports that describe progress in reducing the U.S. cancer burden through cancer research and its dissemination. 12/2001	T983
Cancer Progress Report: 2001 http://progressreport.cancer.gov This report summarizes the Nation's progress against cancer. It is based on the most recent data available from NCI, the Centers for Disease Control and Prevention, and other federal agencies; the American Cancer Society; professional groups and cancer researchers. 11/2001	T905
SURVEILLANCE, EPIDEMIOLOGY AND END RESULTS (SEER)	
Title	Inventory Number
Abstracting and Coding Guide for the Hematopoietic Diseases Information for cancer data collectors (health professionals) on how to abstract and code refractory anemias, polycythemia, and other hematopoietic diseases. 5/2002	T007
Cancer Incidence and Survival among Children and Adolescents: United States SEER Program 1975-1995 A compendium of statistical trends and risk factors associated with childhood cancers is contained in this NCI monograph. It is intended to aid researchers in the search for answers about these rare cancers. 9/1999	T506

Cancer Rates and Risks, 4th Edition, 1996 http://seer.cancer.gov/publications/raterisk/ This summary presents NCI's estimates for cancer incidence, deaths, and survival rates for the United States calculated by the NCI's SEER program. Risk factors for the major cancers are also discussed. 5/1996	P063
Definitions of Single and Subsequent Primaries for Hematologic Malignancies V.102 This chart provides an aid to the registrar in determining single versus subsequent primaries. 9/2001	T878
Racial/Ethnic Patterns of Cancer in the United States: 1988-1992 http://seer.cancer.gov/publications/ethnicity/ This monograph, prepared by NCI's SEER Program, provides a concise description of occurrence of the major cancers among several different racial/ethnic groups in the United States. 4/1996	M349
SEER Cancer Statistics Review 1973-1990 The scope and purpose of this review is consistent with a report to the Senate Appropriations Committee, which recommended that a broad profile of cancer be presented to the American public on a routine basis. 1993	T268
SEER Cancer Statistics Review 1973-1991 The scope and purpose of this review is consistent with a report to the Senate Appropriations Committee, which recommended that a broad profile of cancer be presented to the American public on a routine basis. 6/1994	T815
SEER Extent of Disease 1998, Codes and Coding Instructions (3rd Edition, 1998) Provides the codes and coding instructions for the 10-digit Extent of Disease (EOD) code submitted for every cancer site. 1/1998	T899
SEER Program Booklet: Surveillance, Epidemiology, and End Results Program Provides detailed information on the history and goals of SEER, the incidence and survival data it covers, verification of that data by the NCI Quality Control Program, and SEER's use of other data sources. 07/2000	T633
SEER Program Brochure: Surveillance, Epidemiology and End Results Provides detailed information on the history and goals of SEER, the incidence and survival data it covers, verification of that data by the NCI Quality Control Program, and SEER's use of other data sources. This brochure also provides a tabular presentation of the total 1990 U.S. Census/SEER population coverage and racial diversity represented in the SEER database. 10/1993	T184
SEER Program Code Manual (3rd Edition, 1998) This manual is a limited explanation of the format and definitions of the computerized record routinely submitted by each SEER participant to NCI. 1/1998	T894
SEER Summary Staging Manual 2000 Provides the codes and coding instructions for the summary stage field for cases diagnosed January 1, 2001, and forward. This field is now required by many central cancer registries. 7/2001	T880
Self-Instructional Manual: Abstracting Medical Record: Patient Identification, History, and Examinations (1993) Book 5 Describes the medical record and how to locate and record the information related to a cancer registry (abstract case information).	T189
Self-Instructional Manual: Antineoplastic Drugs (3rd Edition, 1993) Book 8 Provides a list of drugs that should be included under cancer-directed therapy (chemotherapy, biological response modifiers, and hormones).	T190
Self-Instructional Manual: Cancer Characteristics and Selection of Cases (1991) Book 2 Provides instruction in the terminology associated with cancer. Brief description of the natural history of the major cancer types. Introduces the use of ICD-O.	T186
Self-Instructional Manual: Human Anatomy as Related to Tumor Formation (1995) Book 4 Introduction to human anatomy and neoplasm(s) associated with each body system.	T188
Self-instructional Manual: Objectives and Functions of a Tumor Registry (1999) Book 1 Describes the functions, objectives, and activities required to run a tumor registry and the various portions of a registry (e.g. , the various record systems required to run a registry accession file, case file, and follow up cards).	T185

Self-Instructional Manual: Statistics and Epidemiology for Cancer Registries (1994) Book 7	T834
Introduces tumor registrar to the statistics required to run a registry; includes discussion of incidence, mortality, and survival.	
Self-Instructional Manual: Tumor Registrar Vocabulary: The Composition of Medical Terms (1992) Book 3	T187
Medical terminology.	

GENERAL

Title	Inventory Number
Cancer Education Resources for American Indians and Alaska Natives	P260
This directory assists the implementation of cancer prevention and control programs among American Indian and Alaska Native communities. It lists culturally appropriate educational materials about the growing cancer problem and of the need for cancer screening, testing, and early detection programs. 1/1994	
Cancer Information Service: Information Card (Servicio de información sobre el cáncer: tarjeta de información)	Z575
The Cancer Information Service bilingual (Spanish/English) information card lists the toll-free number and services provided by the Cancer Information Service. Tarjeta de información bilingüe (español/inglés) del Servicio de Información sobre el Cáncer, incluye un listado del número para llamadas sin cargo y servicios prestados por el Servicio de Información sobre el Cáncer. 02/2002	
Clear and Simple: Developing Effective Print Materials for Low Literacy Readers	T936
http://oc.nci.nih.gov/services/Clear_and_Simple/HOME . This 61-page guide outlines a process for developing publications for people with limited literacy skills. 12/1994	
Closing in on Cancer: Solving a 5000-Year-Old Mystery	P359
http://newscenter.cancer.gov/sciencebehind/cioc/ciochome.htm This 54-page book traces the interwoven histories of science, medicine, and cancer from ancient Egypt to the present. 9/1998	
Making Health Communication Programs Work: A Planner's Guide	T068
http://cancer.gov/pinkbook This handbook presents key principles and steps in developing and evaluating health communication programs for the public, patients, and health professionals. It expands upon and replaces two earlier publications titled Pretesting in health communications and Making PSA's Work. the guide discusses specific steps in program development and includes examples of their use. Sources of additional information on each subject are included at the end of the chapters. Also know as "the Pink Book."9/2002	
Making Health Communication Programs Work: A Planner's Guide (CD)	Q737
This CD presents key principles and steps in developing and evaluating health communication programs for the public, patients, and health professionals. It expands upon and replaces two earlier publications titled Pretesting in Health Communications and Making PSA's Work. The guide discusses specific steps in program development and includes examples of their use. Sources of additional information on each subject are included at the end of the chapters. 12/2002	
Navigate the National Cancer Institute: cancer.gov	P111
This brochure provides a sampler to introduce NCI's Cancer.gov Web site. Designed for the public, patients, and health professionals. 12/2002	
NCI Cancer-Related Tutorials	Q293
http://newscenter.cancer.gov/sciencebehind/ This CD contains six science education presentations: Understanding Cancer; Understanding Angiogenesis; Understanding Estrogen Receptors, Tamoxifen and Raloxifene; Understanding the Immune System; Understanding Gene Testing; and Understanding CGAP. These tutorials can be used to help present information about cancer and related topics. The content is written at a high-school level. These tutorials are also available on the Web at http://newscenter.cancer.gov/sciencebehind/ *07/2001	

Planning for Progress at the National Cancer Institute (CD)	Q124
Contains The Nation's Investment in Cancer Research, NCI's strategic plan and budget for Fiscal Year 2004 and reports from the following Progress Review Groups: Brain Tumor; Breast Cancer; Colorectal Cancer; Gynecologic Cancers; Kidney and Bladder Cancers; Leukemia/Lymphoma/Myeloma; Lung Cancer; Pancreatic Cancer; Prostate Cancer; and Stomach/Esophageal Cancers; and Strategic Plans for Brain Tumors; Leukemia, Lymphoma, and Myeloma; and Pancreatic Cancer. 4/2003	
President's Cancer Panel, Report of the Chairman, 1999: The National Cancer Program: Assessing the Past, Charting the Future	P684
http://deainfo.nci.nih.gov/advisory/pcp/pcp99rpt/99report.htm	
This report, submitted to the President in fulfillment of requirements of the National Cancer Act, reviews the history and evolution of the National Cancer Program. The report considers how the national effort against cancer should move forward to more rapidly reduce the burden of cancer. 05/2000	
Research on Human Specimens	T179
This brochure describes Federal regulations for NIH grantees who participate in research on human specimens. 2000	
The Immune System – How It Works	P074
This booklet explains the human immune system in language appropriate for the general public. It describes the sophistication of the body's immune response, the impact of immune disorders, and the relationship of the immune system to cancer therapies present and future. 4/1996	
The Nation's Investment in Cancer Research: A Budget Proposal for Fiscal Year 2004	T290
http://plan.cancer.gov/	
This document describes NCI's research priorities and its requested budget for Fiscal Year 2004. It is designed for health professionals and the interested public. 11/2002	
Understanding Cancer (booklet)	P194
This booklet contains the script for the Understanding Cancer slide kit. The script is designed for educators and may be ordered separately from the kit. 3/2000	
Understanding Cancer (slide kit)	K025
A 60-slide, scripted, color presentation that can be used to clarify key concepts of the cell biology of cancer. Designed for educators. 3/2000	
Voices of a Broken System: Real People, Real Problems: President's Cancer Panel Report	P993
http://deainfo.nci.nih.gov/ADVISORY/pcp/video-report.htm	
This is the report of the President's Cancer Panel summarizing the results of the town meetings held throughout the United States during 2000 to learn about cancer care problems faced by cancer patients. It presents the Panel's recommendations for addressing these problems. 10/2001	
Voices of a Broken System: Real People, Real Problems: President's Cancer Panel Report (CD)	Q087
http://voices.cancer.gov	
This CD contains the report of the President's Cancer Panel summarizing the results of the town meetings held throughout the United States during 2000 to learn about cancer care problems faced by cancer patients. It presents the Panel's recommendations for addressing these problems. 9/2001	

MATERIALS IN OTHER LANGUAGES

ASIAN

Title	Inventory Number
Cervical Cancer Screening: What Vietnamese Women Should Know	P488
http://www3.cancer.gov/hpb/vietnamese/cervical/

How to place an order.

NCI publications are free. However, there is a shipping and handling fee of 10 cents per copy for orders over 20 items (bulk orders). To cover the basic accounting costs associated with processing payments for bulk orders, NCI requires a \$5 minimum charge. A discount is applied for orders of 100 or more items.

To ensure that publications are available to all requesters, we may set limits on the maximum number of copies that may be ordered. The number of copies of an individual title that may be ordered depends on the supply in our inventory.

Orders for NCI publications can be placed by Internet, phone or TTY, mail, and fax.

Internet

Visit the NCI Publications Locator Web site at <http://cancer.gov/publications> to order up to 20 items at no cost, 24 hours a day.

Phone

Call 1-800-4-CANCER (1-800-422-6237) and select the option to order publications. Open Monday through Friday, 9 a.m. to 4:30 p.m., local time.

TTY

Contact the Publications Ordering Service at 1-800-332-8615, Monday through Friday, 9 a.m. to 4:30 p.m., local time.

Mail

Complete the Publication Order Form and mail to:

National Cancer Institute
Publications Ordering Service
P.O. Box 24128
Baltimore, MD 21227

Fax

Fax your order form and payment information to the Publications Ordering Service at 301-330-7968.

Shipping to non-U.S. addresses: It is the policy of the Publications Ordering Service to send single copies of NCI materials to individuals or organizations outside the United States and its territories (i.e., any address that does not have a US Postal Service ZIP Code). We will send up to 5 titles without a shipping charge. All foreign orders for 6 or more publications will be charged actual shipping costs. (Foreign requesters will not receive 20 free items.) To place an order to a non-U.S. address, please contact the Publications Ordering Service by mail or fax.

PUBLICATIONS ORDER FORM

The first 20 copies of the entire order will be sent free of shipping and handling charges. Orders exceeding 20 total copies are considered bulk orders and will be charged a shipping and handling fee. All orders must be prepaid.

List the inventory number, title, and quantity of each item in the spaces provided below. If you run out of room, just attach another piece of paper with the remainder of your order. To ensure that materials are available to all requesters, NCI has set limits on the maximum number of copies that may be ordered by any one requestor each month on a title by title basis. If you are requesting a large quantity of a title, please contact 1-800-4-CANCER, and select the option to order publications to verify availability.
